Third meeting notes

Megan Roche, Clayton Chapman, Benja Alwarid
fh22@gmail.com

November 18th 2021

Christmas cookies:

- All agreed on the cookie pucks rather than making them from scratch.
 - We will hopefully be using the upstairs kitchen to cook them but we still need to book the kitchen so it's not set in stone.
 - We will also be posting sign-up sheets to ask graduates to take some pucks home and bake them to bring them back for the set date which is the eleventh. This way we are involving grads and dividing the workload to improve efficiency.
 - Melissa Toner will be asked about how to obtain the pucks and if it's a possible option for us.
 - When some of us go and talk to the grade twelve classes tomorrow it will be mentioned that the date selected is the eleventh and that we will be asking for assistance regarding the cookies in the future.

(December eleventh 2021)

Clothing:

- Michael came to talk to us about possible design ideas; the ideas we had were a simple design on the front (like an emblem) that Michael will design, as well as writing on the back that expresses in some way that we are graduating in the year 2022 and possibly our names, the font will be decided upon by michael. The idea of having our names on the back will be voted
-

upon and will be something that people can either choose to have or not, seeing as it raises the price of the sweater. Oftentimes the price for getting a name on the back depends on how long that name is which is something to take into consideration. Other things that will be voted upon is whether or not we want embroidery, these things will be voted upon via a google form that michael said he would have ready by our next meeting (next thursday at lunch). There will also need to be a voting on whether or not we want sweatpants as an option.

Grad board:

- It was discussed that cadence would be making up some advertising sheets to place on the grad board that state how to get into Facebook and when the dates for events are such as prom and cap and gown. Cap and gown will take place on the 15th and prom on the 16th.

Going to classrooms:

- A few of us will be going to classrooms during a block tomorrow to let grads know what's going on.
 - The things mentioned will be who is involved in the committee, how to get a hold of us , future events (specifically the Christmas cookies), the grad board, that we will be sending out emails through counsellors, the school website, and the dates of prom and cap and gown.
 - Queenie will also be creating an fh instagram and will let us know when it's ready

That's all of the decisions made in this meeting and the discussions that we had regarding future possibilities, once again if there are any questions or anything i can improve on please let me know ! -Benja
